TRACE

OnatexMID is a measurement system complying with the Measuring Instrument Directive MID 2014/32/EU

Fulfils the requirements and recommendations of WELMEC 7.2 and WELMEC 8.8 and OIML R117-1

Certified for the measurement of liquids other than water (MI-005)

Meets the requirements of the Directive on ATEX equipment for potentially explosive areas

Transactions are stored in the system and can be traced using a MID tag

The software and hardware components are protected so that misuse or attempted misuse is registered

Professional training for all user groups

BENEFITS

Existing approvals and certificates (ATEX, MID) - fast schedule and lower project risks

Higher environmental and operational safety

MID approval provides grounds for taxation

Prevention of misconduct

MID approval ensures the correctness of invoicing information in custody transfer

Extensive integrations. Seamless compatibility with Ontec and other systems..
